

YES-EU 40/1 · Wall-Mounted

OVERVIEW

As Europe accelerates its transition to new energy solutions, space-efficient charging infrastructure is essential for commercial facilities, logistics hubs, and private garages. This is an extremely compact and affordable fast-charging solution engineered by experts to meet the growing demands of the European EV market. Delivering reliable DC power directly to the battery, this unit bypasses onboard converters to provide fast, efficient energy delivery while taking up minimal physical space.

SPECIFICATIONS

Charging power

40 kW (48 A DC max)

Output voltage range

200-1000 Vdc

Supply voltage

400 Vac

Max input current

62 A

Charging standard

IEC 61851-1 / -23

Connector

1 x CCS2 · 5 / 7 m

Interface

7" colour touchscreen · RFID

Communication

4G · Ethernet

Smart control

OCPP 1.6J

Operating temp

-20 degC to +50 degC

Protection

IP54

Dimensions (WxDxH)

800 x 170 x 550 mm

Weight

40 kg

Mounting

Wall, column, or optional wheeled unit
