

YES-EU 240/2

OVERVIEW

As European logistics networks and public transit authorities accelerate the adoption of new energy solutions, the YES-EU 240/2 High-Power DC Charger delivers the robust infrastructure required to power the transition. This premium dual-gun charging station is an excellent choice for efficiently energizing electric buses, commercial trucks, and massive heavy-duty fleets across the continent.

SPECIFICATIONS

Charging power	Interface
240 kW	7" HD touch · RFID · optional Nayax VPOS
Max output current	Communication
200 A	4G · Ethernet
Output voltage range	Smart control
150-1000 Vdc	OCPP 1.6J remote management
Supply voltage	Operating temp
400 Vac	-20 degC to +50 degC
Max input current	Protection
368 A	IP54
Charging standard	Dimensions (WxDxH)
IEC 61851-1 / -23	800 x 800 x 2000 mm
Connectors	Weight
2 x CCS2 · 5 / 7 m	350 kg
