

Emergency Charger

OVERVIEW

Deploy reliable, high-power EV charging capacity wherever fixed electrical infrastructure is unavailable. This modular, battery-powered mobile unit ensures your vehicles and heavy-duty equipment stay fully operational in the field, minimizing downtime when it matters most.

SPECIFICATIONS

Charging power	Standards
40-150 kW (adjustable)	CCS2 · CHAdemo · GB/T
Battery capacity	Interface
45-322 kWh	10" touchscreen, touch-start
Max charging current	Operating temp
<= 250 A	-10 degC to +60 degC
Gun output power	Protection
150 kW	IP54 · liquid cooling
Gun output current	Recharging
0-200 A (CCS2) · 0-250 A (GB/T)	DC <= 250 A · AC 63 A
Gun output voltage	Size / weight
300-1000 Vdc	2300x1500x1200 mm · ~1,980 kg (175 kWh)
Connectors	Smart control
1 or 2 x CCS2 · 7 m cable	OCPP 1.6 remote management
